

Texas Association for the Education of Young Children

TXAEYC Vice President of Program Services: Albert Wright

Chances are if you have heard of Albert Wright, it is because you have come to one of his trainings or heard that he was voted TECPEDS 2016's Trainer of the Year for Texas. Even though Albert is entertaining, if you have ever met him, you know that Albert has an unbridled passion for the field of Early Childhood Education, making it his mission to help children across the nation feel loved and empowered by the educators that serve them. Albert was born in La Marque, Texas, and knew from one of his first jobs as an Assistant Youth Minister that he wanted to work with children for the rest of his life.

When Albert is not busy as a Master Trainer, he is pursuing his Masters in Education in Early Childhood, volunteers his time as a consultant for centers in at-risk communities, and serves as a mentor to men who desire to know how to lead their families better. Albert is also a devoted husband and an involved foster parent. He has leadership experience stemming from years of experience working on the Leadership Team with Communities in Schools of North Texas specializing in Membership and Volunteer Development as well as serving on Leadership Teams for the local elementary schools in his district. Albert hopes to apply his skills and talents to advance the needs of our educators, and more importantly, the children we serve.
